※ WARNING : If you are younger than 18, do not use this. You should go to a doctor, preferably an ear-nose-throat doctor (an ENT), because your condition needs specialized care.

Before you begin

1. Thank you for purchasing Good Voice. Read this manual before use.
2. Do not repair, disassemble, or modify the product yourself. This will void the warranty. Contact the dealer if you have questions.
3. Keep this Instructions for Use with you.
4. Please keep the device away from the source of electromagnetic or radiation, as these might interfere with the operation of device.
5. Do not use corrosive or abrasive cleaners.
6. This product is not waterproof. Do not splash water or immerse it.
7. Do not apply excessive pressure.
8. Do not expose to direct sunlight, fire, or extreme temperatures.
9. Avoid strong vibrations or impacts.
10. Check the volume before using. Adjust to a comfortable level. If you hear a sharp feedback sound, lower the volume or stop using.
11. Keep out of reach of children to prevent accidents.
12. The product charges fully in 3 hours. Unplug the charging cable when done. Do not overcharge.
13. Only the manufacturer should replace the lithium battery. Improper replacement can cause an explosion. Use the same or equivalent type. Dispose of used batteries properly.
14. Battery life varies by usage and production time.
15. Software updates may change product features. Refer to the product for actual use. This manual is for reference only.

FCC Warning Statement

Changes or modifications not expressly approved by the party responsible for compliance could void the user's authority to operate the equipment.

This device complies with Part 15 of the FCC Rules. Operation is subject to the following two conditions: (1) this device may not cause harmful interference, and (2) this device must accept any interference received, including interference that may cause undesired operation.

This device has been tested and found to comply with the limits for a Class B digital device, pursuant to Part 15 of the FCC Rules. These limits are designed to provide reasonable protection against harmful interference in a residential installation. This device generates, uses and can radiate radio frequency energy and, if not installed and used in accordance with the instructions, may cause harmful interference to radio communications.

However, there is no guarantee that interference will not occur in a particular installation. If this device does cause harmful interference to radio or television reception, which can be determined by turning the device off and on, the user is encouraged to try to correct the interference by one or more of the following measures:

- Reorient or relocate the receiving antenna.
- Increase the separation between the device and receiver.
- Connect the device into an outlet on a circuit different from that to which the receiver is connected.
- Consult the dealer or an experienced radio/TV technician for help.
